

Philosophie japonaise et philosophie comparée

Dans le cadre de son troisième colloque international, l'association *European Network of Japanese Philosophy* souhaite interroger la possibilité et les modalités de la mise en oeuvre d'un dialogue philosophique interculturel. Organisé dans les locaux de l'Institut national des langues et civilisations orientales et de l'université Paris 1 Panthéon-Sorbonne, ce colloque réunit des japonologues et des philosophes de douze pays européens et non-européens autour de questions qui concernent des thèmes aussi variés que la philosophie de la nature, la philosophie de la religion, la philosophie du langage, l'esthétique, l'éthique, la métaphysique et la philosophie comparée.

Cette manifestation académique inédite en France accueille trois conférenciers invités et cinquante-cinq participants répartis en dix-sept panels et deux ateliers, « Ōmori Shōzō » et « Philosophie comparée ». Pour d'autres informations, consulter : <https://enojp.org/conferences/>.

ENOJP

The European Network of Japanese Philosophy was founded by a group of scholars in the field of comparative and Japanese philosophy in 2014. The core of the organization aims to support and promote in European languages the scholarship of what is broadly construed as Japanese philosophy. The ENOJP aims to achieve this goal by organizing conferences, initiating research projects, and publishing original thematic essays and translation articles through its peer-reviewed journal, the *European Journal of Japanese Philosophy* (*EJJP*).
